#### The Pride of His Class.

He was a bright, handsome boy of sixteen, sunny-tempered, brilliant and engaging, the delight of his parents, the joy of his home, and the pride of his class. But a shadow fell across his bright prospects. It began with a trifling cough; soon came premonitions of consumption, his strength failed, his cheeks grew hollow, and he seemed doomed to an early grave. Then a friend advised Dr. Pierce's Golden Medical Discovery. He tried it and was saved. Health and strength returned, his cheerful voice rang out again across the school playground, his cheeks again grew rosy, his eyes bright. He is still "the pride of his class" and he graduates this year with highest honors.

#### THE MISSISSIPPI FLOOD.

Situation Increasing Seriously in the Steel Bayou Country-Twelve Colored Women and Children Drowned From a Raft.

VICKSBURG, April 7 .- Nineteen negroes, the survivors of a large party of refugees which attempted to escape from the overflow down Bogue Bayou on a raft, arrived here on the steamer Hill City. They report that twelve women and children were drowned when the current lashed their crazy vessel against a tree, and that they escaped with extreme difficulty. This is the most tragic event of the flood. The situation is growing daily more serious in the Steel Bayou country. Earl Miller, a prominent planter, and brother of Attorney-General Miller, arrived from there yesterday by steamer Evergreen, with his family and stock. The Miller plantation, though very high, has gone under. The Evergreen reports the water along the bayou still rising. Cattle and hogs are offered for sale by the people at a song. Much more stock must yet be brought out or allowed to drown. A steamer leaves Tuesday for Sunflower, and that planters will desire to remove their stock is certain. The steamer Oceola arrived last evening from the Bends. Her officers report that the overflow is beginning to empty into the Mississippi through the Eagle Lake, and predict a great increase in pressure all along the Louisiana front from that point southward for the next two weeks. The Oceola begins an inspection of the levees from Delta, La., northwest to-day, and will be joined by President Maxwell, and probably Assistant Engineer Thompson. There is the most unmistakable distress along Steel Bayou, and it will be cruelty to deny it. The Evergeen returns there to-day, and the Bousam, with Captain W. D. Pugh and M. W. Smith on board, will follow Tuesday or Wednesday. They will bring out all people who are suffering or in danger. Barges can not be taken there, and only the smallest boats are suitable for relief work. Captain Pugh will relieve the distressed, whether they have money or not to pay their fare: Telegrams from Sharkey, Tallahatchie river, report a decline of eighteen inches. Captain John B.
